### **Section 16.8.6                      Location Requirements**

#### **A. Front Setback:**

1. Dwellings - All dwellings shall be setback from front property lines a minimum distance of thirty feet (30'). On corner lots or lots with more than two frontages, the front setback for the secondary frontage(s) shall be the same as for the primary frontage.
2. Accessory Structures - All accessory structures shall be setback from front property lines a minimum distance of forty feet (40'). On corner lots or lots with more than two frontages, the front setback for the secondary frontage(s) shall be the same as for the primary frontage.

#### **B. Side Setback:**

1. Dwellings - All dwellings shall be setback from side property lines a minimum distance of ten feet (10').
2. Accessory Structures - All accessory structures shall be setback from the side property lines a minimum distance of ten feet (10'). The maximum height of an accessory structure at the minimum side setback line is twenty feet (20'). The height of the accessory structure may increase by one foot for each additional foot it is setback into the property, to a maximum of 35' (e.g., a 35' building height allowed at the 25' side setback). For additional detail, see Exhibit 1 in this section.

#### **C. Rear Setback:**

1. Dwellings - All dwellings shall be setback from the rear property line a minimum distance of thirty feet (30').
2. Accessory Structures - All accessory structures shall be setback from the rear property lines a minimum distance of ten feet (10'). The maximum height of an accessory structure at the minimum rear setback line is twenty feet (20'). The height of the accessory structure may increase by one foot for each additional foot it is setback into the property, to a maximum of 35' (e.g., a 35' building height allowed at the 25' side setback). For additional detail, see Exhibit 1 in this section.

D. Accessory structures that are 200 square feet or less in size, are 12' or less in height, and have temporary foundations, may be located a minimum of 5' from a side or rear property line in any residential zone. There are no exceptions to the front or secondary front setback. At the owner's risk, they may be located on a platted public utility easement. If a utility is to be placed in the public utility easement, the property owner is responsible for removal of the structure to allow for the installation of the utility. A property owner is required to remove the structure within 30-days of receiving notice. All drainage from the accessory structure must be maintained on site.
